

Who Should Attend

Those who are responsible for planning and scheduling an audit program for ISO 14000 and those who must perform audits to ISO 14000, (Quality Assurance and Environmental Affairs Managers, Quality Assurance and Environmental Professionals, ISO and Environmental Project Managers, ISO and Environmental Project Team Members), or anyone who desires an in-depth understanding of the ISO 14000 Audit Process.

This course will help you

- Interpret the ISO 14001 requirements
- Understand environmental terms and definitions
- View the ISO 14001 requirements from an auditor's perspective
- Plan, manage, and schedule an audit program
- Identify, understand, and manage environmental aspects and impacts
- Provide critical knowledge for management and staff on ISO 14000
- Learn how to audit for ISO 14000 and create effective documentation
- Qualify additional staff in the ISO 14000 requirements
- Gain insight into the ISO 14000 audit requirements to augment/sustain your existing program.
